WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Peak gusts 20-25 mph favoring the Coastal Highlands, greater Bay Area and portions of Siskiyou county today.
- Slight rise in wind speeds Thursday with peak N-NW readings 25-30 mph favoring the higher ridges and gaps found across the NW quarter of the region.
- Upper single digits and teens for humidity minimums, inland areas, through Thu then slight rise each day through the weekend, poor recoveries tonight in many ridgetop locations.
- Above average (5-12 deg) temps today and Thursday, slight cooling Friday into the weekend and ultimately becoming near normal on Sunday.
- Dry weather will prevail through the week. A warming trend builds through mid-week with valley highs reaching triple digits.
- Thursday will likely be the hottest day of this heat episode with highs in the valley forecast to range from 105-110.
- Cooler weather returns for the end of the week.
- Valley highs are forecast to peak in the 105 to 110 range.

SOUTHERN CALIFORNIA

- The warming trend that began yesterday is expected to continue through Thursday as high pressure expands across the region. Expect temperatures to climb to 5-10 degrees above normal the next two days across the entire Geographic Area.
- High temperatures will reach the 80s in the mountains to 100-105 in the valleys and up to 118 in the low desert through Thursday. Expect readings to drop around 10 degrees over the weekend with Saturday being the coolest day.
- Most areas will see minimum RH in the teens through Thursday. Some areas in the Southern Sierra and the Southern CA mountains above 3,000 feet will see minimums in the 8-12% range for up to 6 hours each afternoon.
- Breezy conditions will return to the Kern County Mountains and Banning Pass eastward into the high desert this weekend. Otherwise, winds will be light.
- Several Excessive Heat Watches and Warnings are in effect through Thursday.
 - High temperatures 115 to 120 Wednesday and Thursday.
 - Lows in the 80s.
 - Impacts: Overexposure to the heat can cause heat cramps and heat exhaustion to develop and, without intervention, can lead to heat stroke.
 - Do not leave children or pets in parked vehicles.

WEATHER KEY POINTS

08/14/19 - 08/20/19

Wednesday through Friday

- Hot temperatures continue through Friday.
 - Moderate to High heat risk across much of the state, especially in Southern Region, inland portions of the Bay Area, and the Sacramento and San Joaquin Valleys.

Friday through Monday

- A cooling trend Friday through the weekend will significantly decrease heat-related impacts.

Tuesday

- A warming trend will likely return starting Tuesday, especially across Southern Region.

CALIFORNIA WEATHER IMPACTS

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2019-LAW-4383, 08/07/19, 1645 hours:** Del Norte County Sheriff's Office requested assistance in a cave/mine shaft recovery mission at an undisclosed location. San Bernardino Sheriff's Office initially accepted the mission, but re-contacted and declined. Los Angeles County Sheriff's Department was contacted and accepted the mission. Deployment details are pending. **MISSION ONGOING**

Closed Cal OES Law Missions

- **2019-LAW-4512, 08/13/19, 1015 hours:** IERCC reported an in-Reach device activation at 37.759280, 119.130979, which plotted to the Gem Creek trail above Agnew Lake, Mono County. Via cell phone contact with IERCC, the device registered owner stated that he was having a hard time breathing, had low energy, and believed it could be a colitis flare-up or pneumonia related. Mono County Sheriff's Office was notified and initiated a SAR mission. At 1450 hours the Mono SO SAR team reached the subject and evaluated him. He elected to hike out with the team to a ground ambulance, which transported him to Mammoth Hospital for examination & treatment. **MISSION CLOSED**

Cal OES MISSION TASKING

Cal OES Missions

- 2019-Southern-4518: Mono County, Air Quality Monitor due to the Springs Fire. (On Scene)
